Greetings in the Sun-day ... The day of "El Moria" ... Who was El Moria ... who is today? ...

El Moria was one of the Apostles of Jesus ... He was Peter ... and Hold the keys of Heaven's door. He was also Abraham and King Arthur.

El Moria is a Great Lord ... He was Akbar and also King Magi Melchior ... He dwell in "IA" on the 7D ...

Truth ... clean the Time ... but I will not excuse to push this ...

This is a Lesson about Physics ... but on Sunday ... the day of the Lord.

A Great Italian Scientist ... Marco Todeschini ... that claim to discover (I agree) the location of the Soul in Human Body consider that many facts are ... produced by the "Soul" ... he consider is inside the Brain ... but do not take Space.

Now ... El Moria ... who is a Great Lord that arrive here and play many roles ... Said ... "Beloved, You are in War".

... Many consider the Life is Game ... War is also a Game ...

In this Game of ... "Forces" ... we have ... The Truth vs Lie ... as well the Logic vs the illogicity ...

Between these Lies or Illogical statements ... we have ...

## **Science.**

Along the Millenniums lived in this Wonderful Planet ... specially before the Flood ... that provoke a Planetary Reboot ... 13,000 years ago ... we have not yet consolidated ... a Serious Science ...

Therefore there are a War ... between those who use Science for Profit ... I mean Military Profit ... Domain weak instead to help them ... which is an Old Unfortunately Schema ...

Now, those who use Science have produced a Set of "In-congruent Science" ... like a

Puzzle of pseudo-stable truths that you suppose works where arise "Open Problems" ...

Well ... "The Arrow of Time" ... is one of these problems ...

The statement say:

In the 1928 book *The Nature of the Physical World*, which helped to popularize the concept, Eddington stated:

**Let us draw an arrow arbitrarily. If as we follow the arrow we find more and more of the random element in the state of the world, then the arrow is pointing towards the future; if the random element decreases the arrow points towards the past. That is the only distinction known to physics. This follows at once if our fundamental contention is admitted that the introduction of randomness is the only thing which cannot be undone. I shall use the phrase 'time's arrow' to express this one-way property of time which has no analogue in space**

I will tell you who Time moves forward ... like our Clock ... 16:41 ... 16:42 ...

The reason is ... because the Galaxy moves in one direction and the Galaxy is a "small neighborhood" of Time.

The Universe is a Time ... that can be encapsulated inside an Electron or one of its sub-components ...

The Universe is Conscious ...

Now ... the Way the Universe is Sub-structed in its Dimensions is something that was

## The Arrow of Time ... an Open Problem ... or an Easy Problem? ... by Dr. Giovanni A. Orlando

forgotten for Millenniums between Physical Wars and was know.

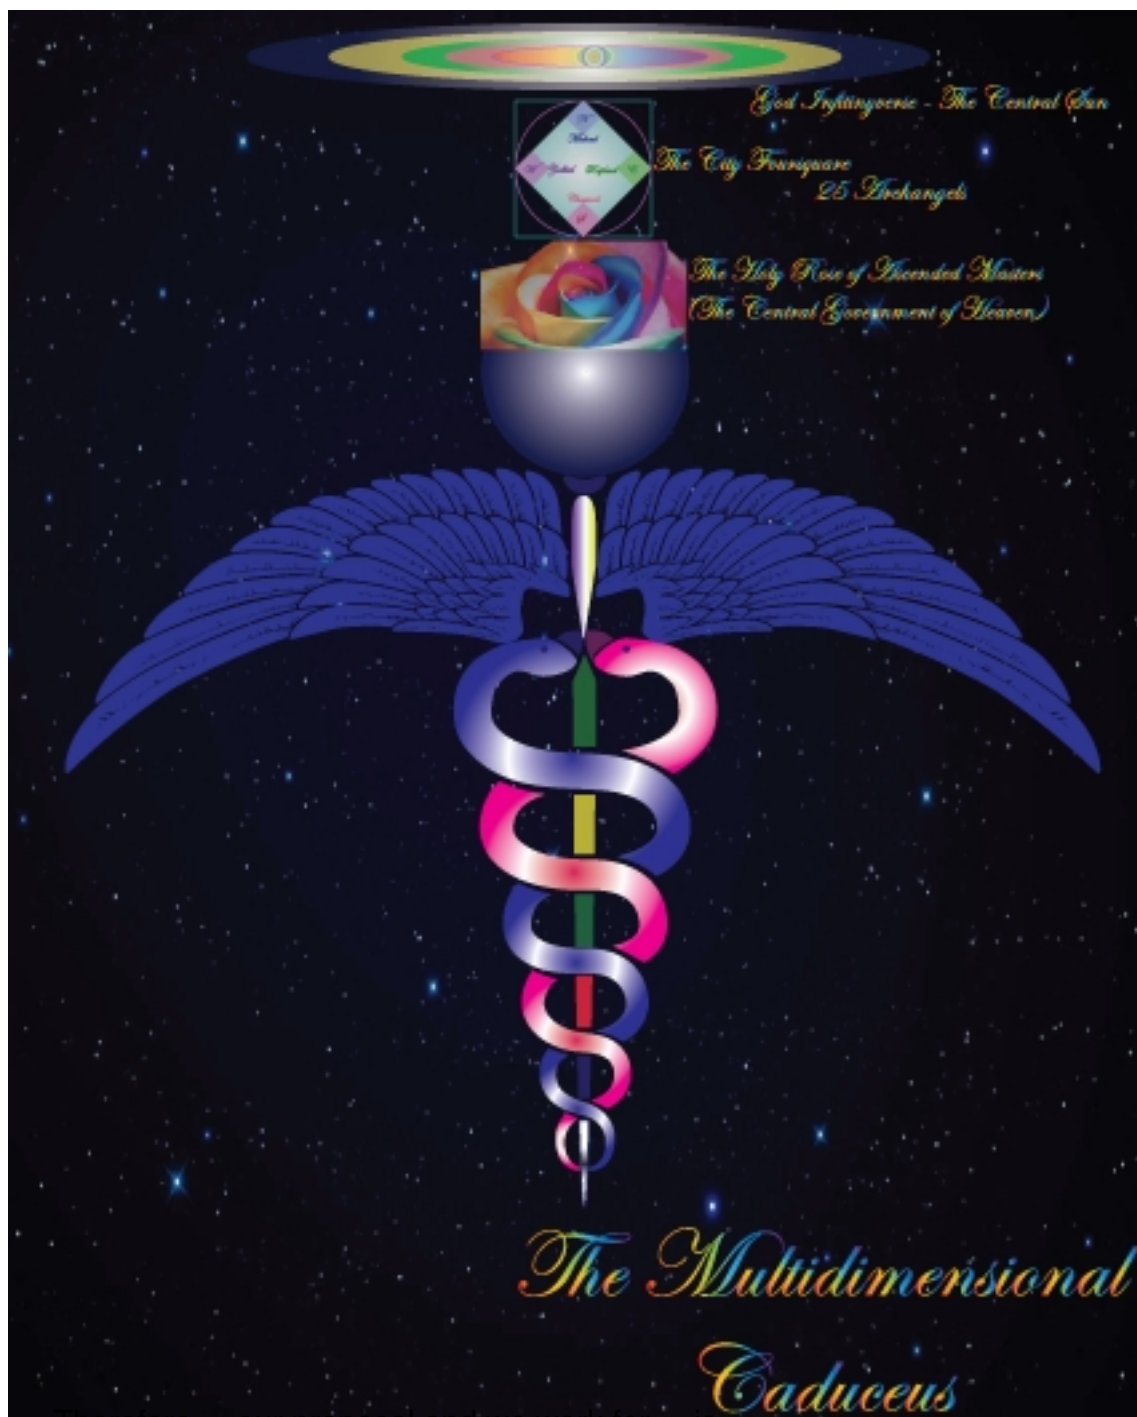

Prof. Einstein propose ... the Curved Space ...

Now the correct figure is ... the Caduceus ...

Therefore ... our proposal and we work for ... is  
**Not to Have a Wrong Physics ... and Open Problems,  
but to have a Correct Physics ... without Problems.**

Thanks,
